OBJECTIVE

Seeking an attachment as a programmer where I will be able to work and have a real world experience with professionals.

QUALIFICATIONS

I am a university student taking Bachelor of science in mathematics and computer science and I am currently in my third year. In those three years I have been able to study programming. My greatest strength is in web development, I can comfortably use **HTML/CSS, PHP**, and basic **javascript**. I have also learnt **PHP framework Laravel** and basic **Javascript framework Vuejs**. I have done some simple projects which I created an **eCommerce website** and a simple **Blog**
