Nairobi, Kenya

VACANCY – ICT INFRASTRUCTURE ADMINISTRATOR

The Karen Hospital is in the process of modernizing its ICT infrastructure and systems to effectively support its core business of providing quality health care services. A vacancy therefore exists for an ICT Infrastructure Administrator, the key job tasks being as follows:-

1. Routine management of hardware, data networks, voice networks and related services
2. Co-ordination of end-user support across the hospital and its satellite clinics
3. Assist in the planning, designing and implementation of new computer hardware, data networks and voice networks
4. Leading a motivated team of ICT support technicians

The successful candidates should have the following attributes:-

1. Not more than 35 years of age.
2. Holder of **Upper 2nd class honours in Computer Science or Electrical Engineering** or closely related field from a recognized university.
3. At least two years post qualification working experience. Experience in IT service industry will be an added advantage.
4. Demonstrated knowledge and experience in networking and multi-user client-server environment
5. Demonstrated knowledge and experience in computer hardware troubleshooting and maintenance.
6. Demonstrated knowledge of CISCO standards, VOIP and IP telephony.
7. Certifications in either CCNA or MCSE. ITIL certification will be an added advantage
8. Demonstrated problem solving skills, interpersonal skills and ability to think laterally
9. Demonstrated team player with ability to work under minimal supervision

A **competitive salary package and benefits** will be offered to the successful candidate.

Please send your application to the address below attaching copies of your **Testimonials**, your **Curriculum Vitae** indicating your **e-mail address, names of three referees, day-time phone number, current salary** if employed.
